

of such reserves shall not be disclosed in any document publicly filed with the Commission, unless such information is required to be disclosed in the document by foreign or state law; provided, however, that where such estimates previously have been provided to a person (or any of its affiliates) that is offering to acquire, merge or consolidate with the registrant or otherwise to acquire the registrant's securities, such estimates may be included in documents relating to such acquisition.

6. The definitions in §210.4-10(a) of Regulation S-X [17 CFR 210] shall apply to this Item with respect to oil and gas operations.

§ 229.103 (Item 103) Legal proceedings.

Describe briefly any material pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the registrant or any of its subsidiaries is a party or of which any of their property is the subject. Include the name of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto, a description of the factual basis alleged to underlie the proceeding and the relief sought. Include similar information as to any such proceedings known to be contemplated by governmental authorities.

Instructions to Item 103: 1. If the business ordinarily results in actions for negligence or other claims, no such action or claim need be described unless it departs from the normal kind of such actions.

2. No information need be given with respect to any proceeding that involves primarily a claim for damages if the amount involved, exclusive of interest and costs, does not exceed 10 percent of the current assets of the registrant and its subsidiaries on a consolidated basis. However, if any proceeding presents in large degree the same legal and factual issues as other proceedings pending or known to be contemplated, the amount involved in such other proceedings shall be included in computing such percentage.

3. Notwithstanding Instructions 1 and 2, any material bankruptcy, receivership, or similar proceeding with respect to the registrant or any of its significant subsidiaries shall be described.

4. Any material proceedings to which any director, officer or affiliate of the registrant, any owner of record or beneficially of more than five percent of any class of voting securities of the registrant, or any associate of any such director, officer, affiliate of the registrant, or security holder is a party adverse to the registrant or any of its subsidiaries or has a material interest adverse to

the registrant or any of its subsidiaries also shall be described.

5. Notwithstanding the foregoing, an administrative or judicial proceeding (including, for purposes of A and B of this Instruction, proceedings which present in large degree the same issues) arising under any Federal, State or local provisions that have been enacted or adopted regulating the discharge of materials into the environment or primary for the purpose of protecting the environment shall not be deemed "ordinary routine litigation incidental to the business" and shall be described if:

A. Such proceeding is material to the business or financial condition of the registrant;

B. Such proceeding involves primarily a claim for damages, or involves potential monetary sanctions, capital expenditures, deferred charges or charges to income and the amount involved, exclusive of interest and costs, exceeds 10 percent of the current assets of the registrant and its subsidiaries on a consolidated basis; or

C. A governmental authority is a party to such proceeding and such proceeding involves potential monetary sanctions, unless the registrant reasonably believes that such proceeding will result in no monetary sanctions, or in monetary sanctions, exclusive of interest and costs, of less than \$100,000; provided, however, that such proceedings which are similar in nature may be grouped and described generically.

Subpart 229.200—Securities of the Registrant

§ 229.201 (Item 201) Market price of and dividends on the registrant's common equity and related stockholder matters.

(a) *Market information.* (1)(i) Identify the principal United States market or markets in which each class of the registrant's common equity is being traded. Where there is no established public trading market for a class of common equity, furnish a statement to that effect. For purposes of this Item the existence of limited or sporadic quotations should not of itself be deemed to constitute an "established public trading market." In the case of foreign registrants, also identify the principal established foreign public trading market, if any, for each class of the registrant's common equity.

(ii) If the principal United States market for such common equity is an exchange, state the high and low sales

prices for the equity for each full quarterly period within the two most recent fiscal years and any subsequent interim period for which financial statements are included, or are required to be included by Article 3 of Regulation S-X [17 CFR 210], as reported in the consolidated transaction reporting system or, if not so reported, as reported on the principal exchange market for such equity.

(iii) If the principal United States market for such common equity is not an exchange, state the range of high and low bid information for the equity for each full quarterly period within the two most recent fiscal years and any subsequent interim period for which financial statements are included, or are required to be included by Article 3 of Regulation S-X, as regularly quoted in the automated quotation system of a registered securities association, or where the equity is not quoted in such a system, the range of reported high and low bid quotations, indicating the source of such quotations. Indicate, as applicable, that such over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions. Where there is an absence of an established public trading market, reference to quotations shall be qualified by appropriate explanation.

(iv) Where a foreign registrant has identified a principal established foreign trading market for its common equity pursuant to paragraph (a)(1) of this Item, also provide market price information comparable, to the extent practicable, to that required for the principal United States market, including the source of such information. Such prices shall be stated in the currency in which they are quoted. The registrant may translate such prices into United States currency at the currency exchange rate in effect on the date the price disclosed was reported on the foreign exchange. If the primary United States market for the registrant's common equity trades using American Depositary Receipts, the United States prices disclosed shall be on that basis.

(v) If the information called for by this Item is being presented in a registration statement filed pursuant to the Securities Act or a proxy or information statement filed pursuant to the Exchange Act, the document also shall include price information as of the latest practicable date, and, in the case of securities to be issued in connection with an acquisition, business combination or other reorganization, as of the date immediately prior to the public announcement of such transaction.

(2) If the information called for by this paragraph (a) is being presented in a registration statement on Form S-1 (§239.11 of this chapter) or Form SB-2 (§239.28 of this chapter) under the Securities Act or on Form 10 and Form 10-SB (§249.210 of this chapter) under the Exchange Act relating to a class of common equity for which at the time of filing there is no established United States public trading market, indicate the amount(s) of common equity (i) that is subject to outstanding options or warrants to purchase, or securities convertible into, common equity of the registrant; (ii) that could be sold pursuant to Rule 144 under the Securities Act [§230.144 of this chapter] or that the registrant has agreed to register under the Securities Act for sale by security holders; or (iii) that is being, or has been publicly proposed to be, publicly offered by the registrant (unless such common equity is being offered pursuant to an employee benefit plan or dividend reinvestment plan), the offering of which could have a material effect on the market price of the registrant's common equity.

(b) *Holder*s. (1) Set forth the approximate number of holders of each class of common equity of the registrant as of the latest practicable date.

(2) If the information called for by this paragraph (b) is being presented in a registration statement filed pursuant to the Securities Act or a proxy statement or information statement filed pursuant to the Exchange Act that relates to an acquisition, business combination or other reorganization, indicate the effect of such transaction on the amount and percentage of present holdings of the registrant's common equity owned beneficially by (i) any person (including any group as that

term is used in section 13(d)(3) of the Exchange Act) who is known to the registrant to be the beneficial owner of more than five percent of any class of the registrant's common equity and (ii) each director and nominee and (iii) all directors and officers as a group, and the registrant's present commitments to such persons with respect to the issuance of shares of any class of its common equity.

(c) *Dividends.* (1) State the frequency and amount of any cash dividends declared on each class of its common equity by the registrant for the two most recent fiscal years and any subsequent interim period for which financial statements are required to be presented by §210.3 of Regulation S-X. Where there are restrictions (including, where appropriate, restrictions on the ability of registrant's subsidiaries to transfer funds to the registrant in the form of cash dividends, loans or advances) that currently materially limit the registrant's ability to pay such dividends or that the registrant reasonably believes are likely to limit materially the future payment of dividends on the common equity so state and either (i) describe briefly (where appropriate quantify) such restrictions, or (ii) cross reference to the specific discussion of such restrictions in the Management's Discussion and Analysis of financial condition and operating results prescribed by Item 303 of Regulation S-K (§229.303) and the description of such restrictions required by Regulation S-X in the registrant's financial statements.

(2) Where registrants have a record of paying no cash dividends although earnings indicate an ability to do so, they are encouraged to consider the question of their intention to pay cash dividends in the foreseeable future and, if no such intention exists, to make a statement of that fact in the filing. Registrants which have a history of paying cash dividends also are encouraged to indicate whether they currently expect that comparable cash dividends will continue to be paid in the future and, if not, the nature of the change in the amount or rate of cash dividend payments.

Instructions to Item 201: 1. Registrants, the common equity of which is listed for trading on more than one securities exchange registered under the Exchange Act, are required to indicate each such exchange pursuant to paragraph (a)(1)(i) of this Item; such registrants, however, need only report one set of price quotations pursuant to paragraph (a)(1)(ii) of this Item; where available, these shall be the prices as reported in the consolidated transaction reporting system and, where the prices are not so reported, the prices on the most significant (in terms of volume) securities exchange for such shares.

2. Market prices and dividends reported pursuant to this Item shall be adjusted to give retroactive effect to material changes resulting from stock dividends, stock splits and reverse stock splits.

3. The computation of the approximate number of holders of registrant's common equity may be based upon the number of record holders or also may include individual participants in security position listings. See Rule 17Ad-8 under the Exchange Act. The method of computation that is chosen shall be indicated.

4. If the registrant is a foreign issuer, describe briefly:

A. Any governmental laws, decrees or regulations in the country in which the registrant is organized that restrict the export or import of capital, including, but not limited to, foreign exchange controls, or that affect the remittance of dividends or other payments to nonresident holders of the registrant's common equity; and

B. All taxes, including withholding provisions, to which United States common equity holders are subject under existing laws and regulations of the foreign country in which the registrant is organized. Include a brief description of pertinent provisions of any reciprocal tax treaty between such foreign country and the United States regarding withholding. If there is no such treaty, so state.

5. If the registrant is a foreign private issuer whose common equity of the class being registered is wholly or partially in bearer form, the response to this Item shall so indicate together with as much information as the registrant is able to provide with respect to security holdings in the United States. If the securities being registered trade in the United States in the form of American Depositary Receipts or similar certificates, the response to this Item shall so indicate together with the name of the depositary issuing such receipts and the number of shares or other units of the underlying

security representing the trading units in such receipts.

§ 229.202 (Item 202) Description of registrant's securities.

NOTE: If the securities being described have been accepted for listing on an exchange, the exchange may be identified. The document should not however, convey the impression that the registrant may apply successfully for listing of the securities on an exchange or that, in the case of an underwritten offering, the underwriters may request the registrant to apply for such listing, unless there is reasonable assurance that the securities to be offered will be acceptable to a securities exchange for listing.

(a) *Capital stock.* If capital stock is to be registered, state the title of the class and describe such of the matters listed in paragraphs (a) (1) through (5) as are relevant. A complete legal description of the securities need not be given.

(1) Outline briefly: (i) dividend rights; (ii) terms of conversion; (iii) sinking fund provisions; (iv) redemption provisions; (v) voting rights, including any provisions specifying the vote required by security holders to take action; (vi) any classification of the Board of Directors, and the impact of such classification where cumulative voting is permitted or required; (vii) liquidation rights; (viii) preemption rights; and (ix) liability to further calls or to assessment by the registrant and for liabilities of the registrant imposed on its stockholders under state statutes (*e.g.*, to laborers, servants or employees of the registrant), unless such disclosure would be immaterial because the

financial resources of the registrant or other factors make it improbable that liability under such state statutes would be imposed; (x) any restriction on alienability of the securities to be registered; and (xi) any provision discriminating against any existing or prospective holder of such securities as a result of such security holder owning a substantial amount of securities.

(2) If the rights of holders of such stock may be modified otherwise than by a vote of a majority or more of the shares outstanding, voting as a class, so state and explain briefly.

(3) If preferred stock is to be registered, describe briefly any restriction on the repurchase or redemption of shares by the registrant while there is any arrearage in the payment of dividends or sinking fund installments. If there is no such restriction, so state.

(4) If the rights evidenced by, or amounts payable with respect to, the shares to be registered are, or may be, materially limited or qualified by the rights of any other authorized class of securities, include the information regarding such other securities as will enable investors to understand such limitations or qualifications. No information need be given, however, as to any class of securities all of which will be retired, provided appropriate steps to ensure such retirement will be completed prior to or upon delivery by the registrant of the shares.

(5) Describe briefly or cross-reference to a description in another part of the document, any provision of the registrant's charter or by-laws that would have an effect of delaying, deferring or preventing a change in control of the registrant and that would operate only with respect to an extraordinary corporate transaction involving the registrant (or any of its subsidiaries), such as a merger, reorganization, tender offer, sale or transfer of substantially all of its assets, or liquidation. Provisions and arrangements required by law or imposed by governmental or judicial authority need not be described or discussed pursuant to this paragraph (a)(5). Provisions or arrangements adopted by the registrant to effect, or further, compliance with laws or governmental or judicial mandate are not subject to the immediately preceding
